

# HEALTH & HYGIENE INFORMATION

## How I keep my clients safe:

- I will wash my hands on site before I start work
- I will frequently use anti-bac hand gel whilst here
- The paints I use have microbiocidal properties which prevent germs growing on them
- To prevent cross contamination, I always use a fresh clean sponge per child
- My brush bath contains sanitiser, I rinse my brushes frequently and will keep my water as clean as possible throughout the event.
- After each booking, I sanitise my whole kit & brushes using a UV-C sterilising light.

## How you can help:

- If your child is sick, please do not send them to be painted. I can't paint those with runny noses or children who have eczema or sores on their faces.
- Please ensure your child's face is clean before they come to me. No runny noses etc..
- Children under 3yrs cannot be painted on their faces but they can have an arm paint if they are 2+
- Do not touch or allow your child to touch my kit
